Massachusetts General Hospital  
Thyroid Clinic,  
Boston, Massachusetts

Dear Doctors:-

I am professionally and personally interested in Mrs. Elizabeth Richardson, Librarian, University of Arkansas School of Medicine who has adenomatosis thyroid and will appreciate your giving me any information you have on treatment by Radio-Iodine, also, where I may get a sufficient amount of the substance for treatment. Know the amount obtainable is limited at least for experimental purposes. I have read with interest your recent articles appearing in the Journal of Clinical Investigation. Thanking you for your co-operation, I am,

Yours very truly,

Please answer by air mail
